

## FLINT RIVER RANCH

### *Do you have a pet that you really care about?*

If so...it is important to read and understand the ingredient's labeled on pet foods. Ingredients are listed in order of their volume percentages. For example, if Soybean is the first ingredient listed on the label-then Soybean is the major ingredient in the food.

**BY-PRODUCTS-Parts of the animal not fit for human consumption.** By-products can include intestines, chicken heads, duckbills, chicken and turkey feet, feathers and bone. Ingredients listed as beef, chicken and poultry by-products are not required to include actual meat. Rendered meat can be any rendered mammal meat including dogs and cats.

**ETHOXYQUIN, BHA and BHT- Chemical additives used as preservatives.** Ethoxyquin is regulated as a pesticide and cannot be added to human food. Many pet foods contain fillers that have little or no nutritional value. Products like feathers, soy, cottonseed hulls, corncobs, peanut hulls, citrus pulp, screening weeds, straw and cereal by-products.

**Look over your current pet food! Smell it! Taste it! How does it feel? Would you eat it? If not- why would you feed it to your pet?**

***A "NO RISK" GUARANTEE! 100% FULL SATISFACTION OR REFUND!***  
***IN 30 DAYS*** your pet will have eating enjoyment- a greater energy level-important in coat and hair- a reduction in "hot spots", dry skin and itching-smaller stool volume with less clean-up.

### **WHAT MAKES FLINT RIVER RANCH PET FOOD UNIQUE?**

**NO CHEMICAL PRESERVITIVES. NO ETHOXYQUIN, BHA or BHT. NO BY-PRODUCTS.** *Flint River Ranch is naturally preserved with Vitamins E and C using human quality ingredients. Most foods using chemical preservatives and low quality fillers may be associated with dry skin, allergic reactions, dental disease, poor health and degenerative organ dysfunction. Made and shipped fresh. Concentrated. Costs less to feed. Recommended by Vets and Breeders. Sold nationally. Delivered by UPS to your home. No more special trips or carrying heavy bags.*

### ***WHAT MAKES FLINT RIVER RANCH CANINE FOOD UNIQUE?***

The Chicken, Rice and Lamb formula is an OVEN-BAKED Kibble- resulting in better nutrition, palatability and digestibility. Oven-baking changes hard to digest starches into easy to digest dextrins, which are readily absorbed into your dog's system. The good value is baked-in, not sprayed on. There are no additives or greasy coatings to make the taste acceptable.

### ***WHAT MAKES FLINT RIVER RANCH FELINE FOOD UNIQUE?***

Chicken and lamb provide Taurine and amino acids for the basic building blocks of muscle, skin, coat, bone, eyes, heart and the immune systems. We guarantee a protein analysis not less than 32% and not less than 20% fat. The protein helps promote acidic urine, low urinary PH and helps prevent F.U.S. *The food has plenty of crunch, like crunching a mouse bone, with a "glassy" texture, fresh smell and then tapered edges that all felines enjoy.*

***CONVENIENT TO ORDER! Check, Master Charge, Visa or American Express.***

**THANK YOU!... For caring about your pet!**
